

## Social Justice Action Project Follow Up Survey (Fall)

This survey is a follow up to the social justice action project you completed in Rel 405. As you recall, one reason for having you complete that project was to provide information for my classroom research project on the best ways to teach and learn social justice. This survey is a means for providing further information for me after you have had some time away from the project. Please answer the following questions on this form in the boxes provided. When you have completed the form, save it and send it as an attachment to an email (much the same as I did to you). Send it to **glennon@lemoyne.edu**. Thanks for your help.
