Goals of the Course: This course is an introduction to the New Testament, focusing primarily on the four gospels (Matthew, Mark, Luke, and John), and some of the letters of Paul. We will also analyze books such as Acts, Hebrews, and the book of Revelations. We will learn how these books came to be written, who wrote them, and their intended audiences. We will study how the New Testament slowly assumed its final form. We will learn about some of the methodologies (source, form, and redaction criticism) that scholars use to study the New Testament. The New Testament is critical to understanding the origins of Christianity. We will study the many (and sometimes competing) approaches to Christianity within the ancient world. We will particularly focus upon differing New Testament views of Jesus and his message. We will also study other writings from the ancient world, such as other gospels, testaments, and books of Acts.
Required Texts:

*Harper Collins Study Bible.*

*From Jesus to Christ.* Paula Fredriksen (Harper-Collins Press).

Suggested Texts (we will be reading portions of these texts):

*Jesus: Apocalyptic Prophet.* Bart Ehrman. (New York: Oxford University Press,).

There will also be E-res and Course Reserve Readings.

**Class Format:** This class is organized as a collaborative exploration with the professor as guide. There will be occasional presentations by the teacher. Classes will focus on serious discussion of the readings. You should come to class each day prepared to discuss the reading for that day. You should also bring the relevant reading materials. Plan especially on bringing the Bible and *Gospel Parallels* every day. Some classes will begin with a problem-solving or analytical exercise related to the topic to be discussed in class. Then we will discuss our theories and strategies. There will also be weekly written assignments (see below).

**Course Requirements:**

1. **Attendance and Participation: 20%**. Regular attendance is a requirement of this course. This course is structured as a collaborative exchange of information between students and professor. The format of the class is a combination of lecture and discussion, with emphasis on discussion and exploration of texts together. Active discussion of the topics is a critical component of this class. If you are present for every class but never say a word, that is a C. Missing more than two unexcused classes will lower your final grade by one full point (B becomes C, for example). You will be given written feedback on your participation midway through the course.

2. **Weekly writing assignments: 20%**. There will be weekly writing assignments each week to aid in
preparing for discussions of the texts. These assignments will focus on the methodology for reading the
texts and your discoveries as you apply these critical tools.

3. **Exegesis Paper: 20%**. This will be a critical examination of a portion of New Testament text. For
detailed instructions on this assignment, click [Exegesis Paper Instructions](#). Exegesis papers are due
March 18.

4. **Group Project: 20%**. This project will allow you to apply what you have learned in the course to a
specific topic related to contemporary debates about the New Testament. The reason there are debates
is because there is conflicting evidence on these issues within the New Testament texts. As a group you
will have to analyze the relevant texts for your topic, study some competing views about these texts,
come to an informed decision about them, and present your findings to the rest of the class. For a list of
topics and detailed instruction on this assignment, click [Group Project Instructions](#). Class
presentations will occupy the last week of class. For important dates click [here](#). The information
presented will be part of the material on the final exam. See also [List of Group Members](#).

For grade criteria click [here](#).

5. **Final Exam: 20%**. The final exam will test your ability to think critically about the texts you have
studied, including aspects of the class presentations. It will be an open book exam.
