Final Report

Toward the end of the project Cohorts should set aside time to discuss and evaluate the project: What did you do, what did you learn, and specifically what did you learn about interreligious pedagogies? Please reference specific changes made to syllabi, assignments, or learning designs.

A final report should be submitted by the Cohort Director by July 30, 2020. The report should have these elements:

1. A short (1000 word) summary of the discussion. Syllabi may be submitted as appendices.
2. 150 word Learning Abstract that summarizes the grant project. This abstract will be posted to the Wabash Center website.
3. Official Financial Report that is prepared by the institution's financial officer, accounting in detail for the expenditure of the grant funds.
